PROFESSIONAL SUMMARY

Experienced Software Engineer with 2 years of expertise in React, Node.js, and TypeScript, adept at developing high-performance web applications. Proficient in AWS services, Python, ML, and large language models, with a focus on advancing Generative AI in language translation, content generation, and conversation systems through a project centered around Large Language Models (LLMs).

EXPERIENCE

Software Engineer

Nagarro

📅 Feb 2022 - Present

- Implemented responsive user interfaces using React to improve user experience and accessibility.
- Worked closely with UI/UX designers to translate design mockups and wireframes into responsive web applications.
- Integrated APIs and middleware such as REST, JSON, Express.js, and JWT for data retrieval and authentication.
- Collaborated with cross-functional teams to identify and resolve technical issues and optimize application performance.
- Participated in code reviews to maintain code quality and adherence to coding standards.
- Stayed updated with the latest trends and best practices in web development, including React, Node.js, and AWS services.

SKILLS

Frontend Development:

React JavaScript TypeScript
Next JS Tailwind Material UI CSS
Bootstrap Axios

Backend Development:

Node JS FastAPI Express JS REST
JSON JWT Swagger Socket.io

Database Management:

Dynamo DB MySQL Mongo DB

Development Tools:

VS Code Webpack JIRA
Google Colab

PROJECTS

AI Based Social Media Aggregator

📅 Nov 2023 – March 2024

- Developed AI system for image analysis, generating captions and hashtags for social media. Used advanced recognition algorithms for object and context identification, boosting post discoverability.
- Technology Stack: Python, AWS, Large Language Models, Machine Learning Algorithms, React.js.

Live Commerce

📅 Aug 2022 – Oct 2024

- Developed a Live Commerce platform using React, Node, TypeScript, and Amazon IVS. The platform enables retailers to host live shows to showcase and discuss products with their audience in real-time, enhancing the shopping experience.
- Technology Stack: React, TypeScript, Node, Amazon DynamoDB, Amazon IVS.

EDUCATION

B. Tech in Computer Science
Tulas Institute

📅 Aug 2018 – Aug 2022

Percentage: 76.52%

Class XII

Central School of Tibetans

📅 March 2017 – March 2018

CGPA: 7.2

Class X

Central School of Tibetans

📅 March 2015 – March 2016

CGPA: 9.4
